Jess Grant Email of 12 February 2016

I would like to add my voice to the request for a permanent solution to the problems at the Rest and be Thankful.

A major incident is surely inevitable and doesn't bear thinking about. The ramifications would be enormous.

All over Europe there are solutions to a similar problem which seem to work. What is wrong with us? Are our engineering capabilities not up to it? That I don't believe.

Yours,

Jess Grant
