

PE1540/R

Elspeth Wells Email of 14 February 2016

Living in Argyll, I am concerned about the constant landslides on the A83 around the Rest & Be Thankful. It is vital that a permanent solution to this on-going problem is found. By luck rather than anything else, no one has yet been killed, though recently a car was badly damaged by debris falling on to it. Much time is wasted by using alternative routes when landslides do occur on this vital link into Argyll and her islands. I wish to add my name to petition PEO1540.
