

PE1411/G

Petitioner Letter of 5 February 2012

By way of response, I will say the following:

- My views and arguments for this petition have already been expressed in the notes that I originally submitted to the Scottish Parliament.
- In my view, writing a further response would only be a reiteration of points already expressed.
- I do not feel that I have the understanding to comment on legal positions.
- If the PPC has any further queries for me, please do not hesitate to contact me but otherwise please refer to the notes I have already submitted.

Thank you,

Luca Scarabello
