

**PE1432/G**

Petitioner Letter of 18 December 2012

Dear Chris

Thank you for getting back to us about our petition.

I don't feel there is anything significant to add to the comments we have already made on the two letters you mentioned.

There seems to be little indication of any real intent to improve the situation whereby the D&G region has some of the worst ambulance response times in the country. However, at least some contact has now been made between the Ambulance Service and the local Community Council in Dalbeattie, which at least holds out some hope for continued dialogue.

Regards

Anthony Duncalf
