

PE1596/W

Petitioner submission of 26 June 2019

I would like these questions asked of Future Pathways:

- 1) Future Pathways is about choice.
- 2) How do you present these choices to survivors of child abuse?
- 3) Are existing services eg; Wellbeing Scotland offered regularly in these choices? If not, why?
- 4) Can you explain why Wellbeing Scotland which is a national service, that Future Pathways has referred only 10 survivors to Wellbeing Scotland since 2016.
- 5) Glasgow, North & South Lanarkshire are 3 main areas in Scotland, as yet they have not received one referral for specialised trauma counselling, why?

Wellbeing Scotland has referred survivors to Future Pathways since 2016.

- 6) I respectfully ask, why this is not reciprocal in a more productive manner?
- 7) Would it not be fair to allow survivors the choice to be referred to Wellbeing Scotland, rather than limit that choice.

Survivors need that choice.
