

PE1600/P

Petitioner submission of 8 February 2019

Finally we have reached a working group after approximately 3 years. This is a great step forward however I trust that this working group will be given a time parameter so as to ensure that we do not roll on for a further 3 years.

It would be really good if this could be completed within 6months and the SAC become part of the tool that Police Scotland has at its disposal to assist those drivers who need correction through education and not statutory fines.
